

FRIONETT® POWER

Photo may differ from actual products

INTRODUCTION

Frionett® Power is a lightly scented, general-purpose cleaner of all smooth surfaces.

This alkaline product is intended for professional cleaning of refrigeration and air-conditioning facilities equipment: heat exchangers (evaporators, condensers), fans, etc. Disassembly is not required for cleaning.

Its cleansing and degreasing power eliminates dust, grease and other dirt, and in this way makes it possible to optimise the exchangers' heat transfers and restored performance.

There are two versions:

- Frionett® Power 5 L:** concentrated product; must be diluted
- Frionett® Power RTU:** ready-to-use product

PROPERTIES

	Frionett® Power 5 L	Frionett® Power RTU
Appearance	Pink liquid	
Density at 20°C	0.956	0.994
Concentrated pH	8	7.9
Solubility in water	Miscible in all proportions	
Flammability	Flammable	Non-flammable

FRIONETT® POWER 5 L (REF.7374+7376)

Photo may differ from actual product

USAGE

Dilute **Frionett® Power 5 L** in water, in a ratio of 1 part product to 5 parts water.

After diluting, apply or spray the product directly on the surface to be cleaned or on a damp cloth, then rinse with water. Repeat as needed.

Packaging: 5 litre container.

PRECAUTIONS FOR USE

Use in a well-ventilated area.
See the safety data sheet.

FRIONETT® POWER RTU (REF.7373+7375)

Photo may differ from actual product

USAGE

Frionett® Power RTU is ready to use.

Spray the product directly on the surface to be cleaned, covering the entire surface, then rinse with water.

Repeat as needed.

Packaging: 750 ml trigger spray bottle

PRECAUTIONS FOR USE

Use in a well-ventilated area.
See the safety data sheet.

These products are in an aqueous solution. The facilities' non-waterproof electrical parts must be protected or disconnected from all power sources.
