Solutions for each application

Refrigeration, air-conditioning, heating and renewable energy professionals – be sure to choose the right refrigerant to comply with F-Gas regulation 517/2014.

F-Gas Solutions is a **FREE** smartphone app available on i-Phone and Android, that offers professionals simple and user-friendly assistance dealing with the new EU regulation 517/2014 (“F-Gas II”) that comes into force on 1st January 2015.

How the app works?

- ✓ Go to the **T. Eq. CO₂ Charge Calculator**, select one of 49 refrigerants to find its GWP. Enter the system charge and it will tell you the Tonne Eq. CO₂ for that refrigerant and the charge.
- ✓ Go to **Climalife F-Gas Approved Solutions**, select one of the 6 application areas, then select new or existing systems to find out what bans apply.
- ✓ If there is a ban, selecting the  (info button) **F-Gas Solutions** will tell you the relevant legislation from the F-Gas text.
- ✓ **F-Gas Solutions** enables you to look at possible solutions individually or together with information on each of them.
- ✓ **F-Gas Solutions** enables you to have the table of all solutions sent to you by email for future reference or use.
- ✓ **F-Gas Solutions** uses a simple colour coding scale from Dark Green  : Best to Red  : Worst.
- ✓ For existing commercial and non-commercial applications it will tell you by refrigerant and charge size about any bans applicable before taking you to the Climalife recommended solutions.
- ✓ **All the useful information stored in one place on your phone for quick reference, wherever you are.**

How do I get the app?

- 1 Go to the App Store or Google Play and search: “F-Gas Solutions”.
- 2 When you see this logo, download.
- 3 It's completely **FREE** to download and **FREE** to use.
