

Version 7.0 Revision Date 09.10.2012

#### Ref. 13000000349

This SDS adheres to the standards and regulatory requirements of Great Britain and may not meet the regulatory requirements in other countries.

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product name	: DuPont <sup>™</sup> SUVA <sup>®</sup> 134a refrigerant
Registration number	: 01-2119459374-33-0002
Synonyms	: 1,1,1,2-Tetrafluoroethane HFC-134a

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the Substance/Mixture Refrigerant

#### 1.3. Details of the supplier of the safety data sheet

Company	Baanho	it de Nemours (Nederland) B.V. bekweg 22 3 LA Dordrecht ands
Telephone	+31-78-	-630.1011
E-mail address	sds-sup	oport@che.dupont.com

#### 1.4. Emergency telephone number

Emergency telephone number : +44-(0)8456-006.640

#### **SECTION 2: Hazards identification**

#### 2.1. Classification of the substance or mixture

Gases under pressure, H280: Contains gas under pressure; may explode if heated. Liquefied gas

Not a hazardous substance or mixture according to EC-directives 67/548/EEC or 1999/45/EC.

# 2.2. Label elements Gas cylinder Warning H280 Contains gas under pressure; may explode if heated. 1/11

Version 7.0 Revision Date 09.10.2012

Ref. 13000000349

Special labelling of certain substances and mixtures	Contains: 1,1,1,2-Tetrafluoroethane / Contains fluorinated greenhouse gas covered by the Kyoto Protocol.
P410 + P403	Protect from sunlight. Store in a well-ventilated place.

#### 2.3. Other hazards

This substance is not considered to be persistent, bioaccumulating nor toxic (PBT).

This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

Vapours are heavier than air and can cause suffocation by reducing oxygen available for breathing.

Rapid evaporation of the liquid may cause frostbite.

Misuse or intentional inhalation abuse may cause death without warning symptoms, due to cardiac effects. May cause cardiac arrhythmia.

#### **SECTION 3: Composition/information on ingredients**

#### 3.1. Substances

Registration number	Classification according Directive 67/548/EEC	Classification according Regulation 1272/2008 (CLP)	Concentration
---------------------	---	--	---------------

#### 1,1,1,2-Tetrafluoroethane (CAS-No.811-97-2) (EC-No.212-377-0)

-,-,-	<u></u>						
01-21	19459374-33-0002		Press. Gas H280	100 %			

#### 3.2. Mixtures

not applicable

The above products are REACH compliant; Registration number(s) may not be provided because substance(s) are exempted, not yet registered under REACH or are registered under another regulatory process (biocide uses, plant protection products), etc.

For the full text of the H-Statements mentioned in this Section, see Section 16.

#### **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

General advice	If unconscious place in recovery position and seek medical advice. Never give anything by mouth to an unconscious person. If breathing is irregular or stopped, administer artificial respiration. If symptoms persist, call a physician.
II	: First aider needs to protect himself.
Inhalation	<ul> <li>Remove from exposure, lie down. Move to fresh air. Keep patient warm and at rest. Artificial respiration and/or oxygen may be necessary. Consult a physician.</li> </ul>
	2/11

Version 7.0 Revision Date 09.10.2012

Ref. 13000000349

Skin contact	Take off all contaminated clothing immediately. Flush area with lukewarm water. Do not use hot water. If frostbite has occurred, call a physician.
Eye contact	: Hold eyelids apart and flush eyes with plenty of water for at least 15 minutes. Get medical attention.
Ingestion	Is not considered a potential route of exposure.
4.2. Most important sympto	ms and effects, both acute and delayed
Symptoms	Inhalation of high concentration may cause central nervous system depressio resulting in dizziness, weakness, nausea, headache and possibly unconsciousness., Anaesthetic effects, Light-headedness, Confusion, Incoordination, Drowsiness, irregular heartbeat with a strange sensation in the chest, heart thumping, apprehension, feeling of fainting, dizziness or weakness
	Skin contact may provoke the following symptoms:, Frostbite
4.3. Indication of any immed	diate medical attention and special treatment needed
Treatment	: Do not give adrenaline or similar drugs.

#### 6.1. Personal precautions, protective equipment and emergency procedures

3/11

Version 7.0 Revi

Revision Da	ate 09.10.2012	Ref. 13000000349
Person	al precautions	: Evacuate personnel to safe areas. Ventilate area, especially low or enclosed places where heavy vapours might collect. Refer to protective measures listed in sections 7 and 8.
6.2. En	vironmental precaution	ns
Environ	mental precautions	: Should not be released into the environment.
		In accordance with local and national regulations.
6.3. Me	thods and materials fo	or containment and cleaning up
Method	ls for cleaning up	: Evaporates.
6.4. Re	ference to other sectio	ns
For dis	oosal instructions see se	ection 13.
OF OTION 7		
	: Handling and storage	
7.1. Pre	ecautions for safe hand	dling

		5
Advice on safe handling	:	Vapours are heavier than air and may spread along floors. Avoid breathing vapours or mist. Avoid contact with skin, eyes and clothing. Provide sufficient air exchange and/or exhaust in work rooms. For personal protection see section 8.
Advice on protection against fire and explosion	:	The product is not flammable in air under ambient conditions of temperature and pressure. When pressurised with air or oxygen, the mixture may become flammable. Certain mixtures of HCFCs or HFCs with chlorine may become flammable or reactive under certain conditions.
7.2. Conditions for safe sto	orag	e, including any incompatibilities
Requirements for storage areas and containers	:	Do not drag, slide or roll cylinders. Never attempt to lift cylinder by its cap. Use a check valve or trap in the discharge line to prevent hazardous back flow into the cylinder. Keep at temperature not exceeding 52°C. Keep containers tightly closed in a dry, cool and well-ventilated place. Protect from contamination. Protect cylinders from damage. Keep away from direct sunlight. Store only in approved containers.
Advice on common storage	:	No materials to be especially mentioned. For further information see Section 10 of the safety data sheet.
Storage temperature	:	< 52 °C
7.3. Specific end use(s)		
no data available		

SECTION 8: Exposure controls/personal protection

Version 7.0 Revision Date 09.10.2012

#### 8.1. Control parameters

If sub-section is empty then no values are applicable.

#### Components with workplace control parameters

Туре	Control	Update	Basis	Remarks
Form of exposure	parameters			

#### 1,1,1,2-Tetrafluoroethane (CAS-No. 811-97-2)

,,,,		-		
TWA	4,240 mg/m3	2007	EH40 WEL	
	1,000 ppm			

#### Derived No Effect Level (DNEL)

• 1,1,1,2-Tetrafluoroethane		Type of Application (Use): Workers Exposure routes: Inhalation Health Effect: Chronic effects, Systemic toxicity Value: 13936 mg/m3 Type of Application (Use): Consumers Exposure routes: Inhalation
		Health Effect: Chronic effects, Systemic toxicity Value: 2476 mg/m3
Predicted No Effect Concent	rat	tion (PNEC)
• 1,1,1,2-Tetrafluoroethane	:	Value: 0.1 mg/l Compartment: Fresh water
	:	Value: 0.01 mg/l Compartment: Marine water
	:	Value: 1 mg/l Compartment: Water Remarks: Intermittent use/release
	:	Value: 0.75 mg/kg dry weight (d.w.) Compartment: Fresh water sediment
	:	Value: 73 mg/l Compartment: Water Remarks: Sewage treatment plants
8.2. Exposure controls		
Engineering measures	:	Ensure adequate ventilation, especially in confined areas.
Eye protection	:	Wear safety glasses or coverall chemical splash goggles. Eye protection complying with EN 166. or ANSI Z87.1 Additionally wear a face shield where the possibility exists for face contact due to splashing, spraying or airborne contact with this material.
		5/11

#### DuPont<sup>™</sup> SUVA<sup>®</sup> 134a refrigerant Version 7.0 Revision Date 09.10.2012 Ref. 13000000349 Hand protection : Material: Leather gloves The suitability for a specific workplace should be discussed with the producers of the protective gloves. : Material: Low temperature resistant gloves Н Н Protective gloves complying with EN 374. or US OSHA guidelines The choice of an appropriate glove does not only depend on its material but also on other quality features and is different from one producer to the other. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Skin and body protection : Wear suitable protective equipment. Wear as appropriate: impervious clothing Protective measures Self-contained breathing apparatus (SCBA) is required if a large release occurs. : The type of protective equipment must be selected according to the concentration and amount of the substance at the specific workplace. Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. : For rescue and maintenance work in storage tanks use self-contained breathing Respiratory protection apparatus. Vapours are heavier than air and can cause suffocation by reducing oxygen available for breathing. Respiratory protection complying with EN 137.

#### **SECTION 9: Physical and chemical properties**

9.1. Information on basic physical and chemical properties		
Form	: Liquefied gas	
Colour	: colourless	
Odour	: slight, ether-like	
Freezing point	: -108 °C at 1,013 hPa	
Boiling point	: -26 °C at 1,013 hPa	
Flammability (solid, gas)	: The product is not flammable.	
Auto-ignition temperature	: 743 °C at 1,013 hPa	
Dxidizing properties	: The product is not oxidizing.	
Vapour pressure	: 5,700 hPa at 20 °C	
Relative density	: 4.24 at 20 °C	

#### DuPont<sup>™</sup> SUVA<sup>®</sup> 134a refrigerant Version 7.0 Revision Date 09.10.2012 Ref. 13000000349 Water solubility : 1 g/l at 25 °C Partition coefficient: n-: POW: 1.06 at: 25 °C octanol/water 9.2. Other information no data available SECTION 10: Stability and reactivity 10.1. Reactivity : Decomposes on heating. 10.2. Chemical stability : The product is chemically stable. 10.3. Possibility of : Stable under recommended storage conditions. hazardous reactions 10.4. Conditions to avoid : The product is not flammable in air under ambient conditions of temperature and pressure. When pressurised with air or oxygen, the mixture may become flammable. Certain mixtures of HCFCs or HFCs with chlorine may become flammable or reactive under certain conditions. Pressurized container: Do not pierce or burn, even after use. Temperature : > 52 °C 10.5. Incompatible materials : Alkali metals Alkaline earth metals Powdered metals Powdered metal salts 10.6. Hazardous Hazardous thermal decomposition products may include: Hydrogen fluoride decomposition products Carbon oxides Fluorocarbons Carbonyl fluoride

#### SECTION 11: Toxicological information

#### 11.1. Information on toxicological effects

Acute inhalation toxicity

 1,1,1,2-Tetrafluoroethane LC50 / 4 h rat :567000 ppm

Low Observed Adverse Effect Concentration (LOAEC) /  $\,\rm dog:\!75000\;ppm$  Cardiac sensitization

Skin irritation

 1,1,1,2-Tetrafluoroethane rabbit Classification: Not classified as irritant Result: slight irritation

Version 7.0

Revision Date 09.10.2012

#### Ref. 13000000349

Not expected to cause skin irritation based on expert review of the properties of the substance.

human Classification: Not classified as irritant Result: No skin irritation

Eye irritation

- 1,1,1,2-Tetrafluoroethane
  - rabbit

Classification: Not classified as irritant Result: slight irritation Not expected to cause eye irritation based on expert review of the properties of the substance.

human Classification: Not classified as irritant Result: No eye irritation

Sensitisation

• 1,1,1,2-Tetrafluoroethane

guinea pig Classification: Not a skin sensitizer. Result: Did not cause sensitization on laboratory animals. Not expected to cause sensitization based on expert review of the properties of the substance.

Did not cause sensitization on laboratory animals. There are no reports of human respiratory sensitization.

Repeated dose toxicity

 1,1,1,2-Tetrafluoroethane Inhalation rat No toxicologically significant effects were found.

Mutagenicity assessment

• 1,1,1,2-Tetrafluoroethane Animal testing did not show any mutagenic effects. Tests on bacterial or mammalian cell cultures did not show mutagenic effects.

Carcinogenicity assessment

• 1,1,1,2-Tetrafluoroethane Not classifiable as a human carcinogen.

Toxicity to reproduction assessment

 1,1,1,2-Tetrafluoroethane No toxicity to reproduction

Further information

Cardiac sensitisation threshold limit : 312975 mg/m3 Avoid skin contact with leaking liquid (danger of frostbite). Inhalation of decomposition products in high

Version 7.0 Revision Date 09.10.2012

Ref. 13000000349

concentration may cause shortness of breath (lung oedema).

#### SECTION 12: Ecological information

#### 12.1. Toxicity

Toxicity to fish

1,1,1,2-Tetrafluoroethane
 LC50 / 96 h / Oncorhynchus mykiss (rainbow trout): 450 mg/l

Toxicity to aquatic plants

1,1,1,2-Tetrafluoroethane
 EC50 / 72 h / Algae: > 118 mg/l
 Information given is based on data obtained from similar substances.

Toxicity to aquatic invertebrates

1,1,1,2-Tetrafluoroethane
 EC50 / 48 h / Daphnia magna (Water flea): 980 mg/l

#### 12.2. Persistence and degradability

Biodegradability

1,1,1,2-Tetrafluoroethane
 / 28 d
 Biodegradation: 3 %
 Not readily biodegradable.

#### 12.3. Bioaccumulative potential

**Bioaccumulation** 

• 1,1,1,2-Tetrafluoroethane Bioaccumulation is unlikely.

#### 12.4. Mobility in soil

Mobility in soil

#### Koc: 37.26

#### 12.5. Results of PBT and vPvB assessment

PBT and vPvB assessment

This substance is not considered to be persistent, bioaccumulating nor toxic (PBT). / This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

#### 12.6. Other adverse effects

Ozone depletion potential
